Exopolitics Special. UFO's ET's Time travel – you name it

I am using this post as storage for a number of excellent videos on the topic of life beyond earth. Sometimes I think that focusing on this is the only way of staying sane. In what part of a pile of s h i t do you want to sit in? For some semblance of mind let us focus our minds on the big picture. It will be added to and published at some time.

NB – I have decided to transfer all this type of material to a special site which is being developed. Watch out for it.

Over 100 civilizations have visited the earth. Some are good, others not so. There are millions upon millions of planets. Logic must tell us that they cannot all be devoid of life. Would you say that Clapham South was the only station on the London underground system?

I have been aware of this topic for years but only in connection with 'UFO sightings' and did not study it much beyond. Recently I have come across three books which have consumed me.

They are all by an abductee **Elena Danaan**, french in origin who tells of her abduction experiences and meeting with human-like and not so human-like beings. The books are not cheap but I did not hesitate. Thank goodness I followed my intuition

2020 – *A Gift From The Stars, Extraterrestrial contacts and*

guides of Alien Races

September 2021 – ‘We will never let you down’. Testimony by Michael Salla, Forward by Laura Eisenhower

August 2022 – *The Seeders – Return of the Gods* – forward by Alex Collier.

Quite extraordinary how she turns out three books in three years. Amazing illustrations of alien beings. I was literally blown away by some of her words. The whole mess on earth makes more sense or at least can be seen with more compassion and objectivity.

The Scientific Principles behind Extraterrestrial Technologies features Dr Michael Salla, a genius inventor Dave Rossi and an abductee Elana Danaan .

How the other half live

Falcons are so cherished in the UAE that they are permitted to ride uncaged in the passenger cabins, with their own personal seats, no less.

I can see that the people who have this sort of life and share

the same planet must have a totally different mind-set from my fairly humble self, living as I do in Midsomer Norton, Somerset, UK. Even when in London during one of my increasingly rare visits, the picture above is hardly credible (or 'incredible' should I say).

My time is spent

- maintaining my website in the hope that others will wake up and see the world for what it really is;
- assisting my local allotment as the secretary and encouraging others to eat more healthily;
- reading widely on exoplanetary matters especially visits from over 100 types of so called 'aliens';
- trying to understand the spiritual principles which distinguish us from other forms of being;
- supporting my friends and contacts as much as I can and I am allowed;
- maintaining my Christian faith in good order by having fellowship with others;
- maintaining my personal diary when I can find the time;
- getting acupuncture treatment to keep myself healthy and balanced and trying to eat well without causing trouble to my Barrett's Esophagus. Basically – no milk after midday. Chew food well. Eat slowly. Not too much water during meals.
- Advertising and promoting my talents as a remote viewer and psychic

Funny how things mount up.

Who knows I might have an occasional holiday.
